

HIS WHISKERS' BIRTHDAY.

Former Senator Peffer of Kansas believes he has been vindicated. TOPEKA, Kan., Sept. 9.—Former Senator William A. Peffer, who represented Kansas in the United States senate from 1891 to 1897, and who was one of its most picturesque members, will celebrate his eightieth birthday anniversary. For nearly a decade after leaving the senate Mr. Peffer continued to reside in Washington, but last spring he returned to Topeka to spend the remaining days of his life.

It is with a sense of the utmost satisfaction that the former senator reverts to the part he has played in public affairs. In the current trend of the people's will he sees a vindication of his theories, and in part, at least, a fulfillment of what as a senator he demanded. In a recent interview he said: "The country now hotly demands legislation it abused me for advocating. I anticipated the evils against which it now cries out."

The Latest in Aviation.

(Chicago Inter-Ocean.)

Four aviators are now entered as competitors in the ocean-to-ocean flight for a \$50,000 prize. It is stated that two of the contestants will go from east to west and fly straight over the continental divide. Any aviator who gets through the breach, cold air currents that rage above the rocky mountains will earn his money. The present aviation record for altitude is only slightly over 11,000 feet, whereas there are scores of peaks in the Rockies that rise above 14,000 feet. The air is thin and cold up there, and snowstorms rage in the middle of summer. At their line (11,000 feet) are great areas of deformed and twisted trees that have been made hideous by the continuous sweep of the wind—even large, fine trees that grow along the ground-like vines because the war of the elements will not allow them to lift up their heads.

An Example of Economy.

(Savannah Daily News.)

Queen Mary of England objects to fruits being served on the royal table out of season, on the ground that they cost too much, and that the money thus saved can go to help the poor. The menus are submitted to her daily, and she goes over them, making changes.

Will Save Trouble Later.

(Arkansas Gazette.)

A woman in St. Louis married, but retained her own name as a condition under which she held certain property bequeathed to her. However, by not changing the name at marriage, it saves a second changing when the divorce case comes up later on.

Physician Said Appendicitis

Ball Stones Expelled by the Great Kidney Preparation

I thought I would do you a favor and let you know what Dr. Kilmer's Swamp-Root has done so far for me.

About one year ago I was taken sick with a terrible pain in my right side. My family physician pronounced it appendicitis. About two weeks ago I received your Almanac and read in it about weak kidneys, and my back hurting me so much, I thought I would try your Swamp-Root and to my great astonishment, after using one bottle, I expelled three gall stones, which weighed 135 grains—just think of it. My kidneys are not well yet, and so I have concluded to continue with Swamp-Root. Mr. Schwake, the druggist, thought that it never was appendicitis and that the doctor was a mistake. It was no doubt, gall stones that caused the trouble, or they would not have come away so soon after commencing with Swamp-Root.

I shall always praise Dr. Kilmer's Swamp-Root, kidney, liver and bladder trouble, and am very thankful that I ever discovered such a worthy remedy. I feel confident that it will cure me entirely of all kidney and liver trouble.

THREE BATTLE WITH DEER.

Violent Buck Seriously Injures One Man Before It's Stabbed to Death.

John Buckley, Capt. Frederick Wood, and Lemuel Ackery, all of Patagonia, L. I., engaged in a stirring battle in Patagonia yesterday with a buck deer. It gave all the men a hard struggle, and seriously injured one of them before it was stabbed to death, says the New York Times. The buck was on the large estate of Mrs. Kate L. Gilbert of Manhattan, whose summer place fronts upon the Patagonia river.

A few days ago Mrs. Gilbert had a notice printed in a Patagonia newspaper saying that a fine buck deer upon her grounds would be given to any one who would come and take it away. The deer was well known in Patagonia as a ferocious beast, and only one man answered the advertisement—John Buckley. He took with him a bottle of chloroform, some cotton that he intended to saturate, and a stout burlap bag in which he intended to place the deer and throw it over the deer's head.

As soon as Buckley came upon the deer it immediately charged him, and with its antlers knocked out of Buckley's hand the chloroform bottle, bag and cotton. At the same time Buckley was knocked down the deer commenced to gore him. Buckley clung to the animal's branching antlers, shouting for help at the top of his voice.

Capt. Wood, commander of Frank Guttridge's yacht, the Elhel, and Ackery were passing along the road on their way home from the South Bay Yacht club. They went to Buckley's assistance. Capt. Wood, who stands six feet two, grasped the buck's antlers, and Buckley sank senseless to the ground. Ackery, who used to be a football player, made a flying leap and tackled the buck's hind legs, bringing on for his life as the enraged beast plunged about. Wood, clinging to the antlers, was dashed about as he had never been in his boat in the roughest of weather. A vicious jerk of the deer's head caused him to lose his hold. Springing to his feet, he ran for the woods, the buck in close pursuit, with Ackery still clinging to one of its hind legs.

Just as the deer was about to strike Capt. Wood, he dodged behind a tree, drew a knife, and as the deer made for him, jumped aside and stabbed the deer behind the shoulder. The deer charged about aimlessly after that, and Capt. Wood stabbed it again and again.

Buckley was assisted to his home. He was covered with bruises, his condition is serious.

The deer that caused all the trouble was found wandering about last two years ago, when it was about two months old. Where it came from was never learned. Game Protector Ferguson asked Mrs. Gilbert's permission to turn it loose on her property, a wooded park of several acres, where there were several other deer belonging to Mrs. Gilbert. As it grew older the buck became so wild and vicious that Mrs. Gilbert determined to get rid of it.

THE GREAT WALL OF ENGLAND.

"Directly across the north of England, between points near Carlisle and Newcastle, ran Hadrian's wall, the northern boundary of the Roman empire. It is generally supposed to have been erected by the Emperor Hadrian, between 117 and 128 A. D. The wall was of stone and was eight feet thick and twelve feet high. It was guarded by eighteen military stations, garrisoned by cohorts of Roman soldiers, and at intervals of a mile were forts, built to contain eighty men each; between every two forts were four watch towers. South of the stone wall was a series of earthen ramparts, and between the two ran the great military road, still in use as a highway. Of this vast work comparatively few portions remain, a matter of wonder, perhaps, when one sees the solidity of the sections of the wall which still stand, but easily explained by the fine stone walls in the immediate vicinity."—Travel.
